Forecast for Sunday 16 Jan 2022

Weather: Most ranges will have a dry day with plenty of sunshine, just an isolated light wintry shower possible across Lochaber.

Chance of cloud free mountain/hill tops above 800m: 80%

Visibility: Generally very good with great air clarity out of cloud. Some patchy cloud down to 700 metres at times chiefly in the north, and some capping cloud around 900 metres or above elsewhere.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Strong summit winds will lead to a risk of significant wind chill, gales expected on the higher Munro tops at times

Forecast for Monday 17 Jan 2022
Weather: A ridge of high pressure across the Southwest Highlands will give a mainly dry day. Some low cloud and coastal drizzle across the northwest at first, this tending to break and clear from the south by afternoon to leave some good spells of sunshine.

Maximum wind: West to Southwesterly 25 to 35 mph

Chance of cloud free mountain/hill tops above 800m: Poor in low cloud across the northwest of the area in the morning down to 450 metres, this tending to clear by early afternoon from the south. Otherwise generally good visibility.

Visibility: Generally very good with great air clarity

Temperature: **Glens:** Plus 2 rising to 8 Celsius
At 800m: Plus 6 Celsius
Freezing level: 1000 to 1500 metres, rising to 2000 metres late in the day
